EXPERIENCE

NORCHI.GE | IDEOLOGICAL PLATFORM FOR GIRCHI — Mar 2025 – Present

FULLSTACK ENGINEER | https://norchi.ge

- Built interactive NextJs 15 platform for the libertarian party Girchi.
- Created a visual editor (ReactFlow) for branching "Socratic tunnel" games.
- Integrated system for users to submit questions, clips, and "tunnel" games with moderation and upvoting features
- Mobile-friendly UI, smooth animations, and contributor-focused flows using React19, TailwindCSS and Drizzle ORM.

REACT FOR EVERYONE | 12-SESSION COURSE FOR IBSU STUDENTS — Jan 2023 – Dec 2023

COURSE INSTRUCTOR | https://www.facebook.com/events/537992032858450

- Designed and delivered a 12-session React course for CS students at IBSU
- Designed sample apps, covering hooks, routing, APIs, Firebase and Tailwind

GOTRIPCAMP.COM | GEORGIAN AIRBNB — Jan 2023 – Dec 2023

FRONTEND DEVELOPER | https://gotripcamp.com

- Created a responsive "Georgian Airbnb" with Next.js 13
- Integrated seamlessly with already existing Firebase + React Native stack
- Added interactive React Leaflet map, infinite scroll, and multi-criteria filtering

DGPEAKS | A LAPTOP MARKETPLACE — Jan 2025 – Present

FULLSTACK ENGINEER | https://dgpeaks.netlify.app

- Built a fullstack laptop marketplace with React 19 + NestJS(node.js) backend
- Developed a dynamic filtering engine that adapts with complex combinations
- Implemented JWT auth, role-based guards, and Google OAuth
- Developed an admin dashboard for content moderation and user roles

GEORGIATRAVELTOURS | TOUR BOOKING — Jan 2025 – Present

FULLSTACK ENGINEER | https://georgiatraveltours.ge

- Developed a fully localized booking platform (EN, KA, RU) using Next.js 15 + next-intl
- Built a smooth 3-step booking flow with interactive maps, and Firebase
- Integrated TBC Payments + auto email invoicing for customers and admins
- Created an admin dashboard for managing tours with Markdown content and media
